DETAILED ACTION

Status of the application

This is the 3rd Office Action

Response filed on May 1st, 2009 is acknowledged. Claims 7, 8 and 10 to 12 are as previously presented.

Response to arguments

1. Applicant's arguments filed on May 1st, 2009 with respect to the rejections of claims 7, 8 and 10 to 12 over Sype in view of Mc Kay and Bowe have been fully considered and are persuasive. The rejections of claims 7,8 and 10 to 12 have been withdrawn and the reason for allowance is stated below

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: the prior art of record, taken either alone or in combination, fails to teach the method steps of gas quenching wherein an intermediate storage tank, installed on the by-pass loop, is used as a transient decompressing charge tank for purging gas to the quenching chamber. This tank allows to shorten the cycle by allowing the evacuated gas to be handled in parallel with the next working tank cycle.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
